

Child Protection Policy

1. The board and management of BC recognise that keeping all people, but particularly Children, safe while in their care is of utmost importance.
2. BC has reviewed the current (January 2018) Child Protection Policy in place for their NSO (BNZ) and agree that we should be adopting policies that are in line with our NSO. BC agrees that this policy is comprehensive and sensible in its approach.
3. Jo Christie has agreed to be the Child Protection Officer for BC. As a newly created role it is important that BC supports her in this role, and resources it as needed.
